

# Logitech G400s Mouse Cable Replacement

This guide will demonstrate how to replace the cable attaching the G400s to your computer.

Written By: Max Evans

## TOOLS:

- [Phillips #1 Screwdriver](#) (1)
  - [Jimmy](#) (1)
-

## Step 1 — Mouse Cable

- Use a Jimmy to remove the mouse feet.
- Be careful to remove any film left by the mouse feet as well.

## Step 2

- Remove the bottom mouse foot using a Jimmy and the same technique as in Step 1.

## Step 3

- Use a Phillips #1 screwdriver to remove the three 5 mm Philips screws on the bottom surface.

## Step 4

- Gently pull the upper shell away from the bottom platform.

## Step 5

- This is what the G400s will look like when the top shell is taken off.

## Step 6

- Push the cable into its proper place inside the mouse shell.

To reassemble your device, follow these instructions in reverse order.
